Frequently Asked Questions about Eligibility Requirements

- Our program will begin in the fall of one calendar year and finish early in the next calendar year. May we apply?

Yes, but FAB will only consider funding that portion presented during the calendar year of the grant. When preparing the budget pages, you should request funds only for the portion to be presented during the eligible grant year.

- What do you consider a visual or performing arts organization?

An organization whose mission is to offer programs in one of the following disciplines for which we accept applications: Dance, Theater, Music, and Visual Arts (including film).

- Our performances are really multi-disciplinary. We present musical theater works, but we also have a major dance component and use the visual arts as an integral part of our work. What should we do?

Select as your category ONE discipline that you consider to be the most important focus of the program for which you request funding.

- May we request funding in an arts area that is not part of our mission (e.g., a visual arts organization applying for a concert series, or a music presenter applying for a visual arts exhibition)?

No. Your grant request must be in the area of your mission or primary business. However, funding is available for programs which are multi-disciplinary provided that one of the disciplines within the program for which funding is being sought is within the discipline stated in your mission.

- We are a not-for-profit organization. Although our primary business activity is not presenting programs in the performing or visual arts, we have decided to present such a program next year. Would we be eligible for a grant?

No. You will be ineligible because your organization is not primarily involved in presenting visual or performing arts programs. However, you may suggest to the performing or visual arts group that it apply to us for a grant, if eligibility requirements are met.

- We are a support group for an arts organization. May we apply?

You may apply if you meet eligibility requirements, your mission includes performances or presentations to the public and the organization you support is not applying for a grant from us during this grant cycle.

- We are applying for a 2024 Education Grant for a program that will not involve a performance or presentation. Would such a program be eligible?

Yes. Please review the guidelines.

- May our organization apply for both a Visual and Performing Arts Grant and an Education Grant?

Yes, using the appropriate application form for each.

Frequently Asked Questions about Funding Criteria

- Where does FAB acquire its funds for grants?

The funding pool is created primarily by member contributions and contributions from our Corporate Partners. Each individual member contributes at least \$1,200 or more annually to grants, couples contribute at least \$1800, young adults (40 and under) contribute at least \$600.

- What happens if we are awarded a grant?

FAB enters into a contract with your organization to provide funds, up to the awarded amount, for specific items in your proposal. Funds will be distributed after the event is complete, on a reimbursement basis. Detailed instructions on how to receive grant funds will be provided in the grant contract packets.

- May we substitute performers, change program, or the dates or location of the event?

Generally, no, you may not because our members have approved a specific program. FAB is not obligated to distribute funds for a program that deviates from the grant proposal. However, some changes may be accepted. Any deviation from the approved program requires **the prior written consent** of the Grants Manager (fabgrantsmanager@gmail.com). **You must submit the Change Request Form found on the Submittable portal.**

Screening and Selection Process

The application process is competitive. Applications are reviewed and evaluated by FAB Screening Teams under the direction of the Grants Chairs. A number of factors are considered including program quality, innovation and community impact, as well as the organization's fiscal and administrative health.

Screening Teams contact eligible applicants to arrange interviews or, when possible, site visits. Interviews and site visits are critical to the review process. Screening Teams make funding recommendations based on a rigorous review of the grant applications and personal interviews.

All members of FAB have an opportunity to read about and vote on proposals. Grant awards are announced soon after votes are confirmed.
